

Get the most out of your smart board

About Gynzy

Everyday tens of thousands of teachers sign into Gynzy to create interactive lessons that engage students. By doing so, they truly get the most out of their interactive whiteboards and save a ton of time in the process.

Gynzy is a web-based software for interactive whiteboards that **works on any brand** and type of board, it is super easy to use and contains hundreds of ready-made interactive activities that are **aligned to the state standards**.

Features

- Gynzy improves student engagement with visual interactive activities that support teacher instruction.
- Teachers can easily create interactive lessons.
- Gynzy is really easy to use which results in easy adoption by teachers.
- Completely web-based, so no software to install or compatibility issues. It simply works on every brand of interactive whiteboard or computer. All you need is an internet connection.
- Access from anywhere, so teachers can work on lessons and prepare content at home or on the go.
- All content is aligned to the common core and state standards.
- Completely built on the feedback we get from teachers.

Testimonials

"Gynzy is a new spin on whiteboard software: straightforward, simple, and all online. I just had to set it up and teachers ran with it."

- Josh McPherson, Assistant Principal, Queens, NY

"It is the most user-friendly software I have every experienced and when I use it my students are all engaged"

- Lindsey Mauriello, 1st grade teacher, Maurice River Township, NJ

Experience Gynzy

We have seen countless times how Gynzy has helped teachers get much more out of their interactive whiteboards. But don't take our word for it. We invite you to try out Gynzy with your school or district and experience firsthand how it will help your teachers. It's free and there's no commitment whatsoever. Visit gynzy.com/try to sign up. It takes only 30 seconds.
